

Quick-Start Sign-Up Guide

Get your practice connected to Vet-Telligence in about 15 minutes.

Before you begin: Have your MWI Account Number ready (or a referral code). You'll also need someone with QuickBooks Online login credentials to complete setup.

1 Go to our website

Visit www.vettelligence.ai (or go to www.dvm.com and click **Vet-Telligence** at the top). Then click **Sign Up for Vet-Telligence**.

2 Fill out the MWI form

This first form comes from MWI. Enter your practice information — add a referral or discount code if you have one, or skip those fields.

3 Check your email for the software contract

You'll get an automated email from noreply@formresponse.com. Follow the instructions and click the link to the Vet-Telligence software contract — this loads your practice into our system. Complete the required fields and sign electronically.

4 Register your email for dashboard login

A second email arrives with a registration link to connect your email to your dashboard. Click it, then sign in with your **Microsoft or Google** email.

5 Open your dashboard

Log in → go to **Manage Hospital** → click **Configure Data Links**.

6 Link QuickBooks Online

Select **QuickBooks Online**, log into Intuit, choose the right company, and click **Connect**. We only access your Profit & Loss report.

7 Wait 24-48 hours for data to flow

You'll receive a confirmation email. Data begins populating your dashboard within 1-2 business days.

MWI ACCOUNT REMINDER

AllyDVM billing runs through MWI, so an MWI Account Number is required unless you used a referral code. No MWI account? Create one at mwiah.com/open-account/create-a-veterinary-account or call (800) 896-8873.
